Morningside College---Western Iowa Tech Community College 2011-2012 Transfer Guide

The transfer guide is designed to help WITCC students who wish to transfer to Morningside College identify WITCC courses that meet Morningside College's Distribution and Flag (general studies) requirements. It also identifies some of the more common majors students transfer into and suggests courses students may take at WITCC for the most efficient transfer to Morningside College.

Admission Requirements

Transfer students must:

- 1) Complete an application for admission (online at www.morningside.edu or a paper version).
- 2) Submit official grade transcript from high school (or evidence of GED).
- 3) Submit official grade transcripts from ALL colleges attended.

Transfer students who have earned at least 24 transferable semester hours with a 2.25 or better transfer GPA meet the academic standards for admission. Transfer students with less than 24 transferable semester hours must defer to the admission requirements for high school seniors and first-year students.

Transfer of Credit

A maximum of 62 semester hours from regionally accredited two-year or community colleges may be transferred to Morningside College, of which no more than 16 semester hours of technical/vocational courses will be accepted toward a baccalaureate degree. Exception: Students enrolled in the Degree Completion Program for Registered Nurses may transfer a maximum of 78 credits to Morningside College.

A maximum of 94 semester hours may be transferred from regionally accredited four-year colleges or universities, or from a combination of regionally accredited two-year or community colleges and four-year colleges or universities.

General Studies: The following equivalency listing shows courses that have been approved by the Morningside College Registrar as meeting Morningside's current Distribution and Flag (general studies) requirements. There may be additional courses that meet the Distribution and Flag requirements. Students may inquire about course equivalencies by contacting Morningside College's Transfer Counselor.

Major, Minor, Clusters and Elective Courses: Courses submitted for transfer credit for major or minor programs or clusters must be equivalent in methods, subject matter, level of instruction, and requirements to Morningside College courses. The Registrar will determine equivalency in consultation with the Dean of the College and the chairs of the academic departments involved as necessary. Courses submitted as transfer credit for open electives are not subject to the "equivalency test." They are, however, subject to approval by the Dean of the College and the Registrar.

Non-Traditional Credit: Morningside College recognizes that students can gain valuable knowledge through experiences outside of the regular classroom setting. For this reason, Morningside will grant a maximum of 32 semester hours of credit toward a baccalaureate degree based on performance in the following areas: Advanced Placement through the high school, College Level Examination Program (CLEP), International Baccalaureate (IB), Academic Credit for College Equivalent Learning (ACCEL), correspondence, electronic credit, and military credit.

Academic Programs

Baccalaureate degrees: Bachelor of Science; Bachelor of Arts; Bachelor of Science in Nursing;
Bachelor of Music; Bachelor of Music Education

Majors:

Advertising	International Affairs
Art:	Management Information Systems
Graphic Design	Mass Communication
Photography	Media & Sales Management
Studio Art	Corporate Communication
Biology	New Media Production
Business Administration	Mathematics
Accounting	Medical Technology Science
Economics	Music
Finance	Music
Human Resource Management	Music Education
International Business	Music Performance
Management	Nursing
Marketing	Philosophy
Chemistry	Physics
Computer Science	Physics
Computer Science	Engineering Physics
Applied Computer Science	Engineering Science
Education	Political Science
Elementary	Psychology
Secondary	Biopsychology
Special Education	Counseling
English	General
History	Industrial/Organizational
History	Religious Studies
American History	Spanish
Interdisciplinary (Student-Designed)	Theatre

Minors:

Acting	Photography
Advertising	Philosophy
American History	Playwriting & Screenwriting
Biology	Political Science
Chemistry	Physics
Computer Science	Religious Studies
Dance	Secondary Art Education
Economics	Spanish
Electronic Media Production	Spanish Teaching
Elementary Art Education	Special Education
Engineering Mechanics	Sports Broadcasting
English	Sports Management
General Business	Stagecraft
General Psychology	Studio Art
Graphic Design	Sustainability Studies
Industrial/Organizational Psychology	Theatre
Journalism	Theater Management
Legal Studies	United States Politics
Mathematics	Women's Studies
Music	World History

Pre-professional programs:

Chiropractic	Medicine	Physician Assistant
Dentistry	Ministry	Veterinary Medicine
Engineering	Optometry	
Law	Pharmacy	
Medical Technology	Physical Therapy

ADVERTISING (Bachelor of Science)

Advertising is an interdisciplinary major that combines study in business, mass communication, and graphic design. Students gain excellent preparation for careers in business ownership, management, advertising, and public relations, or for graduate study in communications or business. Through the [Creative Edge Ad Club](#) and the [Collegiate Entrepreneur Organization](#), Morningside students apply what they have learned in the classroom and continue to develop and refine their skills in communication, networking, and leadership.

Notes:

REL 101 Survey of World Religions meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

BIOLOGY (Bachelor of Science; Bachelor of Arts)

Morningside College's biology major prepares the student for a broad range of career paths, from medicine to conservation biology. Morningside students receive a solid foundation for graduate and professional schools, and develop an understanding of scientific methods, practical application of concepts, and development of field and laboratory skills. State-of-the-art laboratories and classrooms provide students with hands-on work experiences and interactive learning. Students have gone on to succeed in graduate and professional programs in health sciences (medicine, physician's assistant, physical therapy, etc...), or have entered the workforce as conservation officers, naturalists, high school science teachers, laboratory technicians, sales representatives, and science writers.

Morningside College Requirements

WITCC Equivalent Courses

Notes:

REL 150 Introduction to the Bible meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

* Required for Bachelor of Science degree.

BUSINESS ADMINISTRATION (Bachelor of Arts; Bachelor of Science)

Business administration majors will develop an understanding of core business operations, including accounting, marketing, finance, economics, management, and quantitative methods. Students learn to think creatively and critically while applying successful business strategies in an uncertain and diverse marketplace. Through internships, field trips, and class projects students gain a wide variety experiences in the real-world application of business concepts. Students develop leadership skills through a combination of group projects and co-curricular activities.

Morningside College Requirements

		BUS	186	Business Law II

Notes:

REL 101 Survey of World Religions meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

* Students interested in *accounting* or *finance emphasis* should consider taking WITCC's ACC 231 & 232, Intermediate Accounting I & II, prior to transferring.

** Students interested in *finance* or *economics emphasis* should consider taking WITCC's MAT 211 Calculus I prior to transferring.

CHEMISTRY (Bachelor of Arts; Bachelor of Science)

Students majoring in chemistry will have career opportunities in chemical industries working with anything from paper to plastics, pharmaceuticals to fertilizers, or paints to fabrics. Less obvious careers include food science, patent law, forensic science, art restoration, health science, education, and product testing. Morningside College students develop a solid foundation in chemical theory, sound experimental techniques, and strong communication skills in scientific writing and speech. Chemistry, combined with a selection of biology courses, is a strong preparation for graduate or professional schools in health sciences.

Notes:

REL 150 Introduction to the Bible meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

* Required course for Morningside College's Bachelor of Science degree but not for Bachelor of Arts degree.

BIOLOGY TEACHING (Bachelor of Arts)
CHEMISTRY TEACHING (Bachelor of Arts)
GENERAL SCIENCE TEACHING (Bachelor of Science)

Students graduating from Morningside College with teaching majors in any of the sciences have abundant job opportunities in both public and private secondary education school districts. Morningside students gain valuable experience through ample student-teaching opportunities in the tri-state area. Morningside graduates have access to the Teacher Placement Bureau, which provides services for gaining employment.

EDUC 101	Foundations of Education	EDU 210	Foundations of Education
PSYC 101	General Psychology	PSY 111	Introduction to Psychology
PSYC 260	Developmental Psychology	PSY 121	Developmental Psychology

Notes:

Morningside College students must make formal application to the Teacher Preparation Program. One of the criteria for admission to the Teacher Preparation Program is basic skills proficiency as demonstrated by passing the Praxis I exam: Pre-Professional Skills Tests (PPST). The PPST is a three-part examination in reading, writing, and math. We recommend students complete the PPST prior to transferring. **Individual scores can be no lower than 170 in Math, 170 in Reading and 170 in Writing, and combined scores must be equal to or greater than 520.**

ELEMENTARY EDUCATION (Bachelor of Science)

Morningside College has a long history and well-established reputation for producing outstanding educators. The program is fully approved by the Iowa Department of Education. Its emphasis is on being an “effective educator” – a caring professional who enables people to develop the knowledge, skills, and disposition necessary to participate in a democratic society. The elementary education major requires a concentration in an endorsement area such as Reading, Math, Science, Social Studies, Special Education, Coaching, etc. In partnership with area school districts, students spend time observing in schools, serving as teacher aides, assisting teachers in preparing materials, and preparing and implementing lesson plans. These multiple and early-on field experiences prepare students for a successful student teaching experience.

Morningside College Requirements

WITCC Equivalent Courses

Suggested general studies (see page 4 for other courses that meet general studies requirements)

Composition and Communication	ENG	106	Composition II
Empirical Reasoning	BIO	105	Introductory Biology (see notes)
Quantitative Reasoning	MAT	110	Math for Liberal Arts
Global Awareness	HIS	110	West. Civ.: Ancient to Early Modern
Creative Expression	ART	101	Art Appreciation
Ethics & Personal Values and Religious Traditions	REL	101	Survey of World Religions (see notes)

Education and support courses

EDUC	101	Foundations of Education	EDU	210	Foundations of Education
ENGL	203	Children’s Literature	LIT	105	Children’s Literature
PSYC	101	General Psychology	PSY	111	Introduction to Psychology
PSYC	260	Developmental Psychology	PSY	121	Developmental Psychology
GEOG	205	Political & Cultural Geography	GEO	121	World Regional Geography
Physics or physical science requirement	PHS	120	Exploring Physical Science		

Notes:

REL 101 Survey of World Religions meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

Students should choose a biology-lab course to meet both Morningside’s Empirical Reasoning requirement and a teacher licensure requirement. Students who are also interested in a coaching endorsement are encouraged to take WITCC’s BIO 169 Human Anatomy & Physiology instead of BIO 105 Introductory Biology as it meets Morningside’s Empirical Reasoning requirement, a licensure requirement, and a requirement for Morningside’s coaching endorsement.

Morningside College students must make formal application to the Teacher Preparation Program. One of the criteria for admission to the Teacher Preparation Program is basic skills proficiency as demonstrated by passing the Praxis I exam: Pre-Professional Skills Tests (PPST). The PPST is a three-part examination in reading, writing, and math. We recommend students complete the PPST prior to transferring. **Individual scores can be no lower than 170 in Math, 170 in Reading and 170 in Writing, and combined scores must be equal to or greater than 520.**

ENGLISH (Bachelor of Arts)

English is a discipline that investigates the creative potential of literacy in our world and in the rich tradition of the English language arts. Small classes offer our students the opportunity to be creative and energetic in their explorations of language arts. [Friday is Writing Day](#) and [The Sioux City Reading Series](#) are just a couple of ways for students and faculty to develop and share their abilities with the campus community. Students have the option to pursue an emphasis in writing, literature, or secondary English teaching. Students majoring in English have pursued various professional career paths, such as teaching, journalism, law, editing and publishing, business management, marketing, government work, librarianship, the ministry, English as a Second Language, social services, public relations, and human relations.

Morningside College Requirements

WITCC Equivalent Course

Notes:

REL 101 Survey of World Religions meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

Students who have questions about Morningside College's English Department should contact Dr. Marty Knepper at knepper@morningside.edu.

ENGLISH TEACHING (Bachelor of Arts)

Morningside College has a well-established reputation for producing outstanding educators. The program is fully approved by the Iowa Department of Education. Its emphasis is on being an “effective educator” – a caring professional who enables people to develop the knowledge, skills, and disposition necessary to participate in a democratic society. Morningside students have many opportunities for student teaching in the tri-state area, and have access to employment resources through Morningside’s Teacher Placement Bureau.

ENGL	245	Women and Literature	LIT	189	Women and Literature
ENGL	241	Classical Mythology & Literature	LIT	150	World Literature I <i>or</i>
			LIT	151	World Literature II

Notes:

REL 101 Survey of World Religions meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

Morningside College students must make formal application to the Teacher Preparation Program. One of the criteria for admission to the Teacher Preparation Program is basic skills proficiency as demonstrated by passing the Praxis I exam: Pre-Professional Skills Tests (PPST). The PPST is a three-part examination in reading, writing, and math. We recommend students complete the PPST prior to transferring. **Individual scores can be no lower than 170 in Math, 170 in Reading and 170 in Writing, and combined scores must be equal to or greater than 520.**

Students who have questions about Morningside College’s English Department should contact Dr. Marty Knepper at knepper@morningside.edu.

HISTORY (Bachelor of Arts)
AMERICAN HISTORY (Bachelor of Arts)
AMERICAN HISTORY/WORLD HISTORY SECONDARY TEACHING (Bachelor of Arts)
AMERICAN HISTORY/AMERICAN GOVERNMENT SECONDARY TEACHING (Bachelor of Arts)

In pursuing a major in history, students will refine several key skills useful in all contexts, including researching and information gathering, evaluating evidence and sources, organizing facts and ideas, interpreting patterns, constructing explanations, and communicating clearly, persuasively, and logically. Graduates pursue careers in law, public and government service, non-governmental organizations, business as well as in secondary education.

Notes:

REL 101 Survey of World Religions meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

Students interested in a teaching major should choose a biology-lab course to meet both Morningside's Empirical Reasoning requirement and a teacher licensure requirement. Students who are also interested in a coaching endorsement are encouraged to take WITCC's BIO 169 Human Anatomy & Physiology as it meets Morningside's Empirical Reasoning requirement, a licensure requirement, and a requirement for Morningside's coaching endorsement.

Morningside College students must make formal application to the Teacher Preparation Program. One of the criteria for admission to the Teacher Preparation Program is basic skills proficiency as demonstrated by passing the Praxis I exam: Pre-Professional Skills Tests (PPST). The PPST is a three-part examination in reading, writing, and math. We recommend students complete the PPST prior to transferring. **Individual scores can be no lower than 170 in Math, 170 in Reading and 170 in Writing, and combined scores must be equal to or greater than 520.**

MASS COMMUNICATION (Bachelor of Science or Bachelor of Arts)
Emphasis areas of Media & Sales Management, Corporate Communication, New Media Production
Minors in Journalism, Electronic Media Production, Sports Broadcasting

The goal of the Mass Communication programs is to educate mass communication professionals and scholars. The programs prepare students for careers in mass media and educate them about the role of mass communication in society. The various mass communication majors prepare students through classroom study, applied work with campus media, and internships with radio and television stations, public relations and corporate communication departments, newspapers, magazines and on-line media.

The Mass Communication *general degree* is designed for students who are interested in producing mass media messages while mastering the production skills in more than one medium. It offers emphasis areas in journalism and sports broadcasting. The *Media & Sales Management* emphasis combines studies in mass communication with business administration. Valuable experience is gained through managing student media such as KMSC radio, MCTV, and the Collegian Reporter. The *Corporate Communication* emphasis combines studies in mass communication, graphic design and business administration. It prepares students for positions in external and internal communication in business, government, political, and non-profit organizations. The *New Media Production* emphasis combines studies in mass communication with art and computer science. It is designed to give students both the technical and creative background to work in online and other new media fields, such as web-design.

Notes: REL 101 Survey of World Religions meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

MATHEMATICS (Bachelor of Arts or Bachelor of Science)

Mathematics is one of the most fundamental sciences upon which many other academic disciplines are built. Morningside College's Mathematical Sciences Department offers distinct programs in mathematics, physics, computer science and engineering. Students majoring in mathematics are in high demand in many areas including business, economics, government, education, and engineering. Job titles include actuary, operations researcher, statistician, quality control engineer, consultant, statistical analyst, financial analyst and teacher.

MUSIC (Bachelor of Arts)
MUSIC EDUCATION (Bachelor of Music Education)
MUSIC PERFORMANCE (Bachelor of Music)

Morningside College has one of the strongest Music Departments in the state of Iowa, with over a century of experience in educating musicians. The purpose of the Music Department is (1) to educate and prepare students who intend to pursue music as a career; (2) to provide opportunities for all students to develop their appreciation of music, as well as skills as performers and listeners; and (3) to contribute to the cultural enrichment of the community through concerts, recitals, festivals, and workshops.

Notes:

REL 101 Survey of World Religions meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

Transfer students who have begun study of music theory and ear training at another institution are required to take theory and ear training placement tests upon matriculation at Morningside. Students who pass the theory and ear training test at a level comparable to the final exams of Morningside College's MUTC 232/233 Music Theory & Ear Training III/IV may be able to transfer in these theory credits from their previous school.

NURSING (Bachelor of Science in Nursing)

Morningside College's nursing curriculum is based on a solid foundation of courses in the humanities and social and natural sciences. WITCC students desiring to enter Morningside College's 6-semester *basic* Nursing track *may choose but are not required* to complete many of the general studies and support courses as listed below prior to transferring to Morningside College. After being accepted to Morningside College, students must apply for admission to the Department of Nursing Education and complete an interview with a faculty member. +

To be accepted into the ***basic*** track, transfer students **must** have completed the following courses or equivalents: **General Psychology, General Chemistry, Human Anatomy, Human Physiology, and Composition & Communication**. Students must have earned at least a "C" in all required courses and present a cumulative grade point average of 2.75 or better, and be a Certified Nursing Assistant.

		Or CHM 166	General Chemistry I

Notes:

REL 101 Survey of World Religions meets two general studies requirements: Religious Traditions and Ethics & Personal Values.

Satisfactory completion of both BIOL 169 & 174, Human Anatomy & Physiology I & II, are accepted as equivalent to Morningside's BIOL 207 Human Anatomy and BIOL 208 Human Physiology.

While any of the three chemistry courses listed above are acceptable, *CHM 132 is the recommended course*.

Morningside College also offers a **Registered Nurse Degree Completion** track that leads to a Bachelor of Science in Nursing. For more information about this *individually designed* program, registered nurses should contact Morningside College's Department of Nursing Education at 712-274-5156.

POLITICAL SCIENCE (Bachelor of Arts)
INTERNATIONAL AFFAIRS (Bachelor of Arts)

The political science major concentrates on dimensions of the political world. The program explores the development and structure of political institutions, the behavior of groups and individuals in political activity, and the interaction of these components with social, cultural, and economic forces. Morningside College offers courses in the primary disciplinary subfields: American Politics, Comparative Politics, International Relations, and Political Theory. Students majoring in political science will learn the components of political analysis, will become familiar with recent theoretical approaches and debates, will become effective researchers, and will become efficient managers of data and information. Above all, students will be led to apply their learning in real-world political experiences.

GENERAL PSYCHOLOGY (Bachelor of Arts)
INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY (Bachelor of Arts)
BIOPSYCHOLOGY (Bachelor of Science)
COUNSELING PSYCHOLOGY (Bachelor of Arts)

The courses of study offered by the Department of Psychology are designed to prepare students for:
a) graduate school and careers as professional psychologists (e.g., school, industrial/organization, experimental, counseling, and clinical); b) paraprofessional jobs in applied fields such as mental health, mental retardation, human resources and human services; c) an educational experience that will contribute to the understanding of self and others. As a discipline in a liberal arts curriculum, psychology is an appropriate course of study in such fields as nursing, law, social science, management, personnel/human resources, education, criminal justice, advertising, medicine, political science, or any area in which the understanding of human behavior and mental processes are beneficial.

THEATRE (Bachelor of Arts)

Morningside College theatre students explore every aspect of theatre – writing, directing, acting, set design, technical production, costume design and makeup - through in-class and hands-on experiences. Each year the Theatre Department produces three or four major shows and several acting and directing projects. Collaboration with music and dance departments enhances the scope of these projects. Theatre is an excellent preparation for careers in acting, directing, technical theatre, and graduate study in theatre arts. A double major in theatre and music expands post-graduate options even further
